pablo.david.cazorla@gmail.com

I am a developer with over 15 years of experience. Throughout my professional career, I have worked at companies such as MercadoLibre and Globant, as well as on high-impact freelance projects for clients worldwide.

PROFESSIONAL EXPERIENCE

Three Angular

March 2019 - Present

Lead FrontEnd Developer ReactJS

- Led the FrontEnd development of the company's service management tool from scratch.
- Currently develop and maintain backoffice applications.
- Built the company's main website.
- Developed several backoffice applications with their corresponding websites (e.g., Cártel de Vehículos).

Ticket Online

February 2018 - Present

Lead Fullstack Developer

- Along with a Front/Back team, developed a monorepo application to deploy the websites of over 10 bus companies in Argentina and Chile (e.g., Andesmar, Plusmar, etc.).
- Led the FrontEnd team that developed the ticket purchasing gateway used by multiple companies in the bus sector.
- Built *microfrontends* used by various bus company websites and travel agencies (e.g., ticket search tool, slider, etc.).

The Primos NYC Inc.

October 2017 - January 2019

Senior Frontend Developer

- Developed backoffice applications for the company.
- Collaborated with a team including designers to create the company's website.

I Like It

March 2016 - June 2020

Fullstack Developer

- Led the web development of several sites and applications for companies.
- Built WordPress sites from scratch.
- Worked with BackEnd developers to improve APIs and server applications.

Globant*August 2012 - May 2015*

FrontEnd Developer Sr.

- Led the FrontEnd team for the OneStop project (Ecommerce CMS for the U.S.).
- Worked as a FrontEnd developer on projects related to back office tools.

MercadoLibre*October 2010 - June 2012*

UX Analyst - Frontend Developer

- With a team of 9 people (communicators, designers, and programmers), developed several projects.
- Contributed to the development and deployment of MercadoLibre versions for Mexico, Brazil, and Venezuela.
- Helped develop components for MercadoPago and its payment process (e.g., MercadoPago button).
- Collaborated with the Fraud team to develop anti-phishing strategies through communication and interface design.
